### SUMMARY

I am an ambitious and technically skilled final-year Computer Science student with a focus on Software Engineering, eager to begin a career as a Web Developer. My background includes strong expertise in developing and maintaining responsive websites. Proficient in modern web development technologies like HTML, CSS, JavaScript, and PHP, I thrive in building functional, visually appealing, and efficient web solutions. I excel in collaborating with teams to deliver projects that meet user needs and business goals. Fluent in English, Tamil, and Sinhala, I am adept at communicating with diverse stakeholders to ensure seamless development processes. Passionate about creating impactful digital experiences, I am excited to bring innovative ideas and to your team.

### AREAS OF EXPERTISE

HTML - CSS - JavaScript - PHP - WordPress Development - WordPress website Management - SEO Optimization - MySQL / SQL Server - GitHub - Figma - Bootstrap - Agile - SDLC - Multitasking - Team Collaboration - Active Communication - Researching - Adaptability - Critical Thinking - Time Management - Leadership - Effective Communication - Requirements Gathering - AWS (Basics) - UML Diagrams.

### PROJECTS

#### Ayubo Drive

**Technologies:** .NET (C#), SQL

<https://github.com/mhmdijlan/AyuboDrive.git>

Ayubo Drive vehicle rental management system streamlines the booking process and simplifies rental operations, ensuring a smooth user experience and efficient rental management.

#### MI Automobile Car Service

**Technologies:** HTML, CSS, JS, PHP, SQL

<https://github.com/mhmdijlan/MiService>

Developed a web-based system using PHP, MySQL, and Bootstrap for efficient car service booking, invoice generation, and inventory management. The system enables customers to book services, employees to manage bookings, and admins to oversee operations

#### iPremier.lk (E-commerce Website)

**Technologies:** WordPress, PHP, CSS

<https://ipremier.lk/>

Developed and deployed a fully functional e-commerce platform using WordPress and WooCommerce. The website is tailored for mobile phones and accessories, featuring custom WhatsApp integration for checkout, responsive design, and user-friendly navigation.

## EDUCATION

**(BSc) Computer Science in Software Engineering**

**2024 - 2025**

**Kingston University, London**

**Coursework and Modules:** Individual Project, Programming Patterns and Algorithms, Software Development Practice, Digital Entrepreneurship

**BTEC HND in Computing (Software Engineering)**

**2022 - 2024**

**PEARSON College, London**

**Coursework and Modules:** Programming, Networking, Professional Practice, Database Design and Development, Security, Planning a Computer Project (Pearson Set), Software Development Lifecycles, Web Design and Development, Applied Programming and Design Principles, Data Structures and Algorithms, Discrete Maths.

Achieved distinction, acquiring comprehensive knowledge of software engineering principles and practices with networking fundamentals.

**Diploma in English**

**2019**

**Golden College, Kandy**

Achieved distinction, gaining proficiency in professional communication, effective writing, and language skills essential for international collaboration and client interactions.

**Diploma in IT**

**2019**

**Golden College, Kandy**

Achieved distinction, gaining practical knowledge in IT fundamentals, including proficiency in Microsoft Office and basic graphic design skills.

## CERTIFICATIONS

- Database Management
- Software Testing
- Agile Development and Scrum
- WordPress Development
- Search Engine Optimization
